Oregon Health Forum, NAMI Oregon and the Oregon Community Mental Health Coalition are partnering for a special event to kick off **Mental Health Awareness Day** at the Oregon State Capitol. It's widely agreed that a system of community care provides needed support for people dealing with mental illness. Attend this event to discuss how prevention, recovery and integration can be incorporated into a mental health care system that stays grounded in the

community. Minnesota has developed a regional model of mental health care that Oregon may want to emulate. Hear from passionate legislative leaders who will be at the forefront during the session championing improvement of the system. Join us to prepare for the 2009 session and to raise awareness of mental health amongst neighbors, colleagues and friends.
